

In the Claims:

Please amend the following claims:

9/B2
10. (Amended) A method for treating a human patient for coronary artery disease comprising, administering a [safe and] therapeutically effective amount of a recombinant FGF-2 or an angiogenically active fragment or mutein thereof to one or more coronary vessels or to a peripheral vein in a human patient in need of treatment for said coronary artery disease, said therapeutically effective amount being about 0.2 µg/kg to 48 µg/kg of patient weight.

10
19. (Amended) The method of claim 18, wherein said single unit dose produces a therapeutic benefit against coronary artery disease in said human patient that lasts at least four months.

92
11
20. (Amended) The method of claim 19, wherein said [single unit dose produces a] therapeutic benefit in said human patient [that] lasts 6 months.

12
21. (Amended) The method of claim 20, wherein said [single unit dose produces a] therapeutic benefit is of such magnitude and duration in said human patient such that administration of a second unit dose is not required for about 6 months.

Please add the following claims:

93
S/B10
-35. A method for providing a human patient with relief from symptoms of angina comprising administering a single unit dose of a recombinant FGF-2 or an angiogenically active fragment or mutein thereof to one or more coronary
